

Product Specification

Product Description

Fiber Optic Cable Tester is an efficient and low cost basic fiber test tool, it provides a visible way to find fiber faults and identify fibers in an optical network during and after installation. It includes:

- ✓ Finding the breakpoint, poor connections, bending or cracking in fiber optic cables.
- ✓ Finding the faults of OTDR dead zone
- ✓ End-to-end visual fiber identification

Features

Status LED:
Green-CW mode
Flash Green-QCW mode
Red—Low Batterv

Power Button:
Press ---Power On
Re-press ---Power off

Modulation Button:
Press---QCW mode
Re-press-CW mode

- ✓ Constant & stable output power
- ✓ Special laser driver circuit design, to make sure the laser output power remains a constant power level as long as in an available battery voltage.
- ✓ Low battery warning, reminds users to change the battery timely.
- ✓ Long battery life (up to 40 hours with AAA batteries)
- ✓ Operates either in CW or Pulsed
- ✓ Light weight, easy to use

Specifications

Item	Parameter
Wavelength	650±10 nm
Output Power	1mW,10mW(Optional)
Optical connector	2.5mm and 1.25mm with included adapter
Power	2 AAA alkaline battery (not included)
Plus Frequency	2 to 3 Hz
Operating Temperature	-10℃ to +45℃
Storage Temperature	-40℃ to +70℃
Dimensions	100*30*18mm
Weight	60g (Include with battery)
